

PLEASE REMEMBER...sizes in the past were considerably smaller than current sizing. These shirts have not shrunk (always washed in cold and usually hung to dry and not dried in the dryer), but they are smaller due to the old sizing. The Jimmy Buffett shirts are closer to modern sizing, since they are more recent.

Where it says "3/4" in the description indicates 3/4 length sleeve baseball jersey style (very popular in the 80's!)

ARTIST	YEAR	DESCRIPTION	SIZE	CONDITION
